House of Representatives State of Tennessee

December 9, 2024

In Tennessee, we overwhelmingly reaffirmed our support for President Donald J. Trump and his agenda this election, and today, we stand firmly behind Pete Hegseth as his choice for Secretary of Defense. The relentless attacks against this war hero and proud Tennessean—launched by both the far-left and the D.C. Republican establishment—are truly beyond belief. Pete is uniquely qualified for this role and would be one of the finest cabinet selections in decades to revitalize our military.

During his active-duty military career, Pete served honorably as an infantry officer, platoon leader, and Army National Guard reserve officer. His commendations, including the Bronze Star Medal, the Combat Infantryman Badge, and two Army Commendation Medals, speak to his bravery and commitment. Even after his active service, he continued fighting for veterans' rights, leading organizations like Concerned Veterans for America and Vets for Freedom.

Here in Tennessee, we take pride in calling Pete one of our own. He is a highly educated man—an alumnus of Harvard and Princeton—an unwavering conservative, a perceptive political commentator, and, above all, a dedicated family man and veteran.

In his role at Fox News, Pete has remained a steadfast advocate for his fellow soldiers. He is unafraid to challenge the toxic wokeness the Biden Administration has injected into our military. He has remained unwavering in demanding the changes our armed forces desperately need to preserve their position as the world's foremost military power.

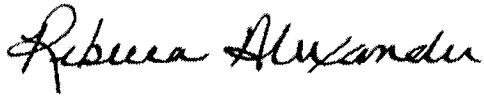

We are grateful to our Senators Marsha Blackburn and Bill Hagerty for doing just that, standing by a fellow Tennessean who is qualified, passionate, and ready to serve and strengthen our nation's defense.

God Bless,

Majority Caucus Chairman
Jeremy Faison
